American industry stands first in the world. Men have built American industry, and those very men we waste like water. James W. \$5,200 TO \$15,000

Most men have not realized that the sarning of big money comes auto-matically with GOOD WORK WELL, DONE, so we have put the cart before he horse.

The above statement is not theoretical, because more than 80 men from all walks of life, running a long gamut of experience from clerk to university professor, have answered Business Builders advertisements, and right now, as we are writing this advertisement, are carning salaries from \$5,200 to \$15,000 a year.

AGAIN, THIS IS NOT THEORET-ICAL, because in one of our largest units last week the average earnings of the active men were \$51.00 for one week's work—\$91.00 for each active

While you are in training for a fu-ure executive position you are paid a liberal commission, earning while earning; yes, that's it!

You owe it to yourself to investigate that kind of epportunity. 201.00 a week means \$4,732 a year. Paradoxical as it seems, this institution PAYS YOU a tuition for the training that we give you for an EXECUTIVE POSITION, AGAIN, we repeat, THESE POSITIONS pay from \$5,200 to \$15,000 a year, and AGAIN WE REPEAT, over 80 men, in the past few months have succeeded in winning these positions.

We have an idea that we crowd into a few months a training that would otherwise take years to get: training classes, experience meetings, inspirational addresses given by the leaders in American business and finance, daily personal contact with executives who have graduated from the same kind of work you will find yourself in; graduates from the same conditions that YOU ARE NOW IN.

DR. FRANK CRANE, admittedly one of the greatest moral forces in the world to-day, and now associated with James W. Elliott, has said:

The nature of our work forces you to put money into your pockets and to give you and to teach you the "fine art of selling yourself in the business of life," and, last and most important, making yourself WORTH SELL-ING in the business of life.

HARRINGTON EMERSON, also an associate of Mr. Elliott, and acknowledged America's foremost efficiency expert for his achievements in human engineering, says: "Of all living creatures man is the most capable of improvement, of taking on value, Many men are diamonds in the rough, others are at least pieces of glass, seme are pieces of suid with which nothing can be done."

ment, our business is in sceing that our men ARE IMPROVED.

James W. Elliott, head of James W. Elliott's Business Builders, Inc., and writer of Man Messages, has given his message to over 700 of the biggod corporations in the United States. These corporations bought and paid for his messages because they knew their "action forcing" power in increasing the productive effectiveness of their various employees. The World's Salesmanship Congress was addressed twice by Mr. Elliott. His speech at the International Rotary Club Convention was as asked to address over 100 Entary Clubs in the United States the following year. We have beard Mr. Elliott say that everything he has written, every speech he has made, every action in a career crowded with action, has been based on his philosophy of life and work as contained in the "WHOLE STORY."
